Domains at War Battles and Campaigns Compendium Alexander Macris

Adventurer Conqueror King System Domains at War Tomorrow you will bring the battle to the foe. Tonight you walk among the troops you'll lead. The mercenaries are veterans and sleep while they can, but the peasants levied from your lands seek courage in tales of your previous victories. In the cover of darkness, you can listen rather than lead. Remember when you were like them? Back when you first entered the dungeon, you wielded a sword to fight for gold, glory, and the favor of the gods. Winning these earned you a throne. Now you wield an army, and fight for the right to rule the domains at war. Domains at War™ brings the full sweep of fantasy warfare to tabletop gaming and role-playing campaigns. The Domains at War Complete Set offers three interlocking systems to cover the full sweep of military struggles in a fantasy, ancient, or medieval world: A quick mass combat rule system for use in any role-playing game that uses concepts like hit points and armor class A comprehensive campaign toolkit for use in ongoing games, fully compatible with the Adventurer Conqueror King System's rules for mercenaries, strongholds, magic, and rulership A fast-playing tactical wargame derived from these systems, so that playing a battle generates outcomes like what you'd get if you fought it out on the one-on-one roleplaying scale This hardcover compendium includes everything from the Domains at War: Battles and Domains at War: Campaigns rulebooks. Domains at War is designed for Autarch's best-selling Adventurer Conqueror King System™, but is compatible with any fantasy RPG system that uses twenty-sided dice and shares concepts like hit points and armor class. If your tabletop gaming would benefit from the vivid drama and agonizing choices of warfare, Domains at War is designed for you.
