This book presents hundreds of documented cases of individuals and groups of people who claim to have encountered the mythical Sasquatch, but not in the previously presumed manner. These documented contacts suggest that the Bigfoot are psychic, multidimensional and able to slip into and out of an unseen dimension, hence its elusivity and the lack of physical specimens. Evidence is presented from many first hand accounts that Bigfoot works in conjunction with extraterrestrials, as guards and scouts. This is an astonishing take on an old subject, written by an experienced field investigator and scientist who has studied this issue for many years.
