Readings in Gender in Africa (Readings in African Studies)

Readings in Gender in Africa collects the most important critical and theoretical writings on how gender issues have transformed contemporary views of Africa. Scholarship from North America, Europe, and Africa is represented in this comprehensive volume. A synthetic introduction by Andrea Cornwall discusses efforts to include women in research about Africa. The volume not only shows how gender relations have been constructed on the African continent but reflects the changes in approach and inquiry that have been brought about as scholars consider gender identities and difference in their work. Specific themes covered here include the contestation and representation of gender, femininity and masculinity, livelihoods and lifeways, gender and religion, gender and culture, and gender and governance. Readers from across the landscape of African studies will find this an essential sourcebook.
