Pediatric Abusive Head Trauma Pocket Atlas: Traumatic Injuries Lori D. Frasier, Tanya D. Hinds, Francois M. Luyet

Pediatric Abusive Head Trauma Pocket Atlas, Volume 1: Traumatic Injuries offers complete guidelines for identifying and responding to pediatric abusive head trauma, all in a portable format. Written in mostly non-technical language and conveniently sized, this guide can easily be referenced at any point during the identification or response process.

This complete overview of abusive head trauma includes comprehensive information on common presentation and possible outcomes of abusive head trauma. It also details the many different kinds of injuries that may result from abusive head trauma, including extracranial injuries and scalp trauma, intracranial injuries with and without associated bleeding, and fractures.

This pocket guide is supplemented with more than 150 radiologic images, offering a perfect point of reference for identifying the various kinds of injuries one may face in investigating abusive head trauma. This atlas also provides readers with concrete analyses of a variety of traumatic head injuries in children. The comprehensive nature of Pediatric Head Trauma Pocket Atlas: Traumatic Injuries makes it an ideal resource for medical, social work, and law enforcement professionals in need of a quick, comprehensive field reference on abusive head trauma.
