The Grip of Death: A Study of Modern Money, Debt Slavery, and Destructive Economics Michael Rowbotham

A lucid and original account of where money comes from and why most people and businesses are so heavily in debt. It explodes more myths than any other book this century, yet it's all about subjects very close to home: mortgages, building societies and banks, agriculture, transport, global poverty, and what's on the supermarket shelf. The author proposes a new mechanism for the supply of money, creating a supportive financial environment and a decreasing reliance on debt.
