Plant Reproduction (Science Readers: Content and Literacy)

Shelly C. Buchanan

Plant Reproduction (Science Readers: Content and Literacy) Shelly C. Buchanan

From a tiny seed to a towering tree, plants reproduce and carry on generations in the most amazing ways. Learn the “how” and “why” about plant reproduction in this intriguing book. Filled with engaging diagrams and interesting facts, students will get an in-depth look at how plant reproduction works and why each plant is quite different. High-interest text and vibrant images and photographs fill the pages of this book to make learning about plant reproduction fun and interesting. A “Think Like a Scientist” lab activity that supports STEM instruction is included at the end of the book for students to use what they learned in the text and apply that knowledge to the activity. A helpful glossary, table of contents, and index are also included for additional support.

About Shell Education

Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.
