Brabham BT52 Owners' Workshop Manual 1983 (all models): An insight into the design, engineering, maintenance and operation of Babham's BMW-turbo-powered F1 car Andrew van de Burgt

Designed to suit new regulations, after ground-effect cars were banned at the end of 1982, the BT52 was very distinctive, with short, angular sidepods and a dart-shaped profile. During the 1983 season, the innovative Brabham team, with now F1 supremo Bernie Ecclestone at the helm, introduced the first high-pressure fuel rig seen in F1, to speed up refuelling stops, and used 'ovens' to pre-heat tyres prior to pitstops. This manual provides a fascinating insight into the design, evolution, operation and maintenance of the Brabham BT52.
