Crisis by Design: The Untold Story of the Global Financial Coup and What You Can Do About It John Truman Wolfe

There's been a coup d'état. It was not a mob of AK-47 wielding militia overthrowing a dictator in a third-world country. This one was different. On April 2, 2009 at a meeting of the G-20 in London, the fiscal autonomy of the United States (and other nations) was quietly turned over to a little known bank with a troubling Nazi past. The story of this coup sounds like something out a Ludlum novel, but this is real and John Truman Wolfe has documented one of the most enormous power grabs in history, the establishment of what international bankers call a GMA, a Global Monetary Authority. How it was done, who did it, and why, is the subject of *Crisis by Design*, a no-holds-barred expose of a takeover of the planet's central banks. Wolfe not only exposes the dark side of this operation, he tells you how you can protect yourself as well as what public policy actions need to occur to take back control of our national economic life. Wolfe does not spew economic psychobabble. Instead, he writes in a smooth and easy-to-understand style. And the message is clear-an international financial coup has occurred. We must protect ourselves as well as our national sovereignty.
