UFOs: What Is the Government Really Covering Up? A R Roberts

"UFOs: What Is the Government Really Covering Up? is not just another book about the 1947 Roswell crash. Ingeniously, Roberts takes a step back and offers an in-depth survey of the UFO phenomenon as a whole. Using familiar case studies of alien encounters as examples, he casts a wide net that shows a clear pattern of extraterrestrial visitation and the ensuing cover-up by US and world governments. In the end, the reader cannot help coming away with the same conclusion--that something is going on and our government knows it. A must-read for those interested in ufology, conspiracy theories, and ancient aliens."

--Rita Louise, PhD, author of *ET Chronicles: What Myth and Legend Say about Human Origin*

While a seemingly unexplained event in Roswell, New Mexico, in 1947 exposed the American people to the phenomenon of unidentified flying objects--or UFOs--these mysterious sightings have a history that reaches far back into our collective past. Ancient megalithic structures, biblical stories, and even prehistoric art and cave paintings point to the existence of nonterrestrial life--and with advanced technology, new recordings, and the Internet, more evidence points to their continued presence today.

Why, then, do we the public know so little? Why has the media ignored credible reports from eyewitnesses and ufologists? And why have world governments suppressed these facts from their citizens? The UFO enigma is an extremely complex jigsaw puzzle comprised of many pieces. However, they fit together in a way that presents a cohesive theory when you connect all the dots.
