Set in a decaying post-apocalyptic London of the future, under a relentless sun, this is the story of the life and loves of one woman, who dares to leave the drudgery of her life in a community of survivors to join a band of rebels. In order to find a more hospitable place to live than tropical London, with its scourge of rats and lack of food, this small group of mavericks set sail on a perilous voyage across the polluted seas, attempting to navigate their way north to a cooler climate. But their journey is traumatic, as with dwindling food and water under cruel blue skies, divisions within the group are heightened by bitter rivalries, strange couplings and grim childbirth. Yet they are also united by their joint purpose of finding a new life. Tough and tenacious, Verity Jenkins fights to survive by using every physical and mental advantage she possesses, even if she has to sacrifice her soul or that of others on her journey. She is darkly bewitching to both men and women but has an astute intelligence and empathy that drives her will to live, even if her conscience sometimes troubles her. But above all, she is a Londoner, and the city resides in her heart, even despite her many lovers. This is her story.
