MG-34 - MG-42: German Universal Machine Guns Folke Myrvang

The author, a First Lieutenant in the Norwegian Home Guard, has produced this unique, in-depth study of the MG34 and MG42 (the German Universal Machineguns of World War II) by combining his military expertise with his experiences as an avid recreational machinegun shooter and collector. Taking their cue from the MG16, proposed during WWI as the first-ever Einheitsmaschinengewehr (universal machinegun), an audacious programme was begun in secret in Germany in 1930 to develop one new weapon which would combine the advantages of the light machinegun and the heavy machinegun, and be capable of performing all the functions previously allotted to both. The book contains much profusely illustrated material on the historical development, fielding, tactical use of and modifications made to these remarkable guns and their myriad accessories and ancillaries, plus authoritative tips on Troubleshooting the MG42, and especially the MG34, today.

From reader reviews:

Steven Cruce:

Information is provisions for people to get better life, information nowadays can get by anyone with everywhere. The information can be a knowledge or any news even a problem. What people must be consider if those information which is inside the former life are challenging to be find than now is taking seriously which one is appropriate to believe or which one the particular resource are convinced. If you find the unstable resource then you understand it as your main information it will have huge disadvantage for you. All those possibilities will not happen within you if you take MG-34 - MG-42: German Universal Machine Guns as the daily resource information.

Harry Crawford:

The e-book with title MG-34 - MG-42: German Universal Machine Guns has lot of information that you can understand it. You can get a lot of help after read this book. This particular book exist new information the information that exist in this book represented the condition of the world at this point. That is important to you to find out how the improvement of the world. This kind of book will bring you within new era of the internationalization. You can read the e-book on your smart phone, so you can read that anywhere you want.

Ray Ortiz:

Exactly why? Because this MG-34 - MG-42: German Universal Machine Guns is an unordinary book that the inside of the reserve waiting for you to snap that but latter it will jolt you with the secret the item inside. Reading this book adjacent to it was fantastic author who all write the book in such wonderful way makes the content within easier to understand, entertaining way but still convey the meaning totally. So , it is good for you because of not hesitating having this ever again or you going to regret it. This excellent book will give you a lot of advantages than the other book possess such as help improving your ability and your critical thinking technique. So , still want to delay having that book? If I were being you I will go to the book store hurriedly.

Pamela Dodge:

As a scholar exactly feel bored in order to reading. If their teacher asked them to go to the library or to make summary for some e-book, they are complained. Just minor students that has reading's heart and soul or real their passion. They just do what the trainer want, like asked to go to the library. They go to generally there but nothing reading seriously. Any students feel that studying is not important, boring and also can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. So , this MG-34 - MG-42: German Universal Machine Guns can make you truly feel more interested to read.
